

**Minutes of the Weare Hazard Mitigation Committee Meeting held on
July 20, 2011 in the Weare Safety Center,
144 N Stark Highway, Weare, NH 03281**

MEMBERS PRESENT

Paul King	-	EMD, Chair
Doug Alwine	-	CERT
Sue Tuthill	-	Weare Fire
Tim Redmond	-	DPW Director
Charles Meany	-	Code Enforcement Officer
Jillian Harris	-	SNHPC

MINUTES

The Weare Hazard Mitigation Committee approved the minutes of the June 15, 2011 Weare Hazard Mitigation Committee meeting.

REVIEW STAPLEE RESULTS

The Weare Hazard Mitigation Committee (WHMC) reviewed the STAPLEE exercise results for new and ongoing mitigation strategies. The committee made changes to the prioritization based on items that were already underway and items they felt were most crucial for the town to focus on at this time. Ms. Harris will make the changes for the committee to review at the next meeting. Two items were added that were not already listed:

- Install an emergency generator at the transfer station
- Work with the conservation commission to acquire land for an alternate access road to Route 77 from the Highway Dept.

COST IMPLEMENTATION ESTIMATES

The WHMC also added cost estimates for each mitigation strategy, as well as responsible party, timeframe and funding sources.

REVIEW SECTION III: VULNERABILITY ASSESSMENT

The review of Section III will be moved to the next meeting as SNHPC is still in the process of gathering data for it.

REVIEW SECTION VI: ADOPTION AND MONITORING

The WHMC reviewed Section VI on Adoption and Monitoring and made no changes.

APPENDICES AND MAPS

Ms. Harris will update the appendices as needed and the maps will be finalized for the next meeting's final review.

NEXT COMMITTEE MEETING

The committee will meet next on August 17, 2011 at 10:00 am in the Weare Safety Complex.

Meeting adjourned.
